## TECHNICAL SKILLS

**Relevant Courses:** Data Structures and Algorithms, System Design, Object-Oriented Programming (OOP), Operating Systems, Cyber Security, Computer Networking, Database Management, Cloud Computing (AWS), Mathematics, Stats  
**Languages:** Java, Javascript, C/C++, C#, Python, PHP, SQL, HTML, CSS, Typescript, Apex .NET  
**Libraries & Misc.:** Spring Boot, Angular, Git, Postman, Kafka, AWS, Jenkins, Jira, PostgreSQL, MySQL, Office suite, Docker, MongoDB, Spring Cloud, Highcharts, jqGrid, WinSCP, Putty, Nginx, SourceTree, GitLab

## EXPERIENCE

### Software Developer

Oct. 2023 – Present

*Annex Infotechnologies*

*Delhi, India*

- Improved national crop yield accuracy (**85%**) by digitizing CCE data via GPS-tagged images, real-time insights
- Reduced data retrieval time by **50%** through optimized PostgreSQL stored procedures for crop yield analytics
- Decreased stakeholder decision latency **30%** by building Angular dashboard for instant access to survey metrics
- Ensured **100%** milestone delivery by managing **250+** Git commits with standardized practices & team alignment
- Facilitated data-driven policy in parliament by engineering Spring Boot services for GCES food supply estimation

### Software Developer

May 2022 – May 2023

*Digilytics AI*

*Gurugram, Haryana*

- Accelerated loan processing by **5** days/cycle; Engineered cross-team workflows; Eliminated manual dependencies
- Boosted user engagement **40%** by developing responsive UI components; Optimized load times under **3** seconds
- Enhanced lending efficiency by integrating AI-powered workflows using Java microservices and Kafka pipelines
- Modernized mortgage ops, deployed modular frontend with Highcharts, JQGridTable for **100%** real-time insights
- Conducted unit & integration testing across **12+** modules, boosting app stability and test coverage by **18%** overall

## PROJECTS

### Online Shopping Platform | *Microservices, Kafka, Spring Boot, Resilience4j*

Mar. 2024 – Apr. 2024

- Amplified feature rollout speed **30%**, re-architected monolith into modular microservices with Spring Boot, Docker
- Implemented resilient inter-service communication with Kafka and Resilience4j, ensuring high system availability
- Designed and deployed **6** scalable microservices enabling seamless order, inventory, and notification workflows
- Improved service discovery, fault tolerance by configuring Eureka-based registry for dynamic microservice routing
- Strengthened platform reliability by containerizing services with Docker, orchestrating robust deployment pipelines

### Open Source Projects | *Spring Cloud, Docker, MySQL*

Aug. 2020 – Jun. 2022

- Drone Simulation System:** Developed geolocation-based ops & mission tracking for drones with RESTful APIs
- Crafted production grade full stack **shopping app** with cart, checkout functions; Integrated delivery, payment systems
- Developed menu-driven C voting system with candidate selection, vote counting, NOTA support, real-time results
- Built BNPL system using Spring Boot, Angular; automated **100%** order, EMI generation & payment tracking flows
- Built scalable **cab booking system** in Java & Spring Boot with real-time driver matching, efficient ride handling

## EDUCATION

### Graphic Era University

Dehradun, Uttarakhand

*Master of Computer Applications, CGPA 8.0/10.0*

*Jun. 2020 – May 2022*

### Acharya Institute

Bangalore, Karnataka

*Bachelor of Computer Applications, CGPA 6.0/10.0*

*Jun. 2016 – May 2019*

## ACHIEVEMENTS

- Completed Infosys Cloud Computing course & AWS certification course via Udemy, enhancing cloud expertise [2024]
- Recognized as **Employee of the Month** (top 1 of 50) at Digilytics AI for exceptional performance & impact [2022]
- Achieved Adventurer rank on Trailhead by completing Salesforce modules, boosted CRM platform expertise [2022]
- Achieved proficiency in Java & Software Testing at ABC Technology Institute, Bangalore, boosting core skills [2019]
